

Clubs reporting to Bowls Alberta
Reporting of Groups / Visitors to your Club

Our provincial funding is based on many factors and so we constantly gather data and submit reports. In the past our membership numbers were based only on those that paid a membership fee to bowl. That has changed, and we may now report anyone and everyone that comes to our clubs. If they pay some type of fee we may count our 'guests'. Challenge is that we must report them as male or female AND in age categories. Please use the following chart to report the 'numbers'. Your assistance is much appreciated as we set out to show our funders that we really have over 5000 Albertans that come out and use our clubs and/or bowl.

Event & Date	U12		13 - 18		19 - 24		25 - 55		55 Plus	
	F	M	F	M	F	M	F	M	F	M
Totals:										

Club _____ Postal Code _____

Estimates are okay!! It is understood that you can't always ask people their age, you can't get accurate numbers from groups that come in, and you can't put a ton of time into this collection process. Your best estimates for all your events, reported monthly is what we are hoping you can comply with for our reporting.

For each 100 'guests' reported your club will receive one ballot/vote for the exact total number of guests across the province. Will it be 5000? 10,000? Closest to the number will be acknowledged and awarded at the AGM.

Thanks so much for your help with this!
